

polylac

High Gloss Panels

Polylac by Gizir is an ecological multi-layered decorative panel, with the highest scratch and heat resistance on the market. It also has the highest gloss level in the industry with a mirror-like reflection.

The best quality panels you can find worldwide

Polylac is an ecological multi-layered decorative panel, with the highest scratch and heat resistance on the market. It also has the highest gloss level in the industry with a mirror-like reflection.

Polylac panels are made by pressing a high-density decorative paper to MDF. A specially developed bio-optimised transparent PET film is then laminated on the surface to protect it from external factors. The surface can be glossy or matte depending on the PET to be used.

Polylac can be used in the kitchen, bathroom, living room, bedroom, hotel furniture, office furniture and wall panel applications.

Acrylic and ABS edgebands are available to be used for the edges.

Polylac Panel Characteristics

Width x Length (mm) 1220 x 2800 (4'x9')

Surface PET

Panel MDF

Edgebanding Acrylic (single colour/double colour), ABS

Why Polylac?

1. EXCLUSIVE

Polylac has the best quality panels you can find worldwide.

2. EXCELLENT SCRATCH RESISTANCE

Polylac has the highest scratch resistance in the world with the mirror reflection.

3. ECOLOGICAL

One of the world's most important authorities approved our quality. Polylac is available as FSC® Certified.

4. ENVIRONMENTALLY FRIENDLY

Polylac is one of the most environmentally friendly products in the industry. It's 100% PVC free!

5. EASY TO CLEAN AND MAINTAIN

Polylac is easy to clean and maintain. All domestic products can be used to clean it, but mild soap and water will be adequate to keep the surface shining like a mirror.

6. SMOOTH SURFACE AND DEPTH EFFECT

Gizir uses the best quality papers and component to procure Polylac with the highest gloss level, smooth surface finish and richness of colour design.
