

Sustainable Products Sustainable Relationships

Upper Canada is a Canadian owned and operated distributor of Hardwood and Plywood products that has been servicing the millwork community for over 25 years. Our longevity in the industry has been based upon quality products, strong customer relationships, a high level of service and a commitment to sustainable materials and distribution. Upper Canada is committed to ensuring that our products are harvested and distributed in a responsible manner (FSC®), do not release harmful chemicals into the air we breath (NAF, NAUF, and CARB Compliant) and comply with the strictest industry standards (LEED).

LEED Projects: How can we help?

MR 4.1/4.2 Recycled Content: Plywood products such as MDF and PBC are made with 100% Post Industrial wood fibers

MR 5.1/5.2 Regional Material: Hardwoods such as Alder and Western Birch, Softwoods like Fir and Hemlock as well as Plywoods like our Domestic Meranti (produced here in the GVRD) and hardwood veneered products from Washington State all comply with this point

MR 6 Rapidly Renewable Material: Materials produced using Bamboo or Wheatgrass

MR 7 Certified Wood: Wood-based materials such as hardwoods harvested both here in North America and overseas as well as plywood products are obtained and distributed in accordance to the FSC's Principles and Criteria

EQ 4.4 Low-Emitting Materials: Composite materials like PBC, MDF, and Veneer Core produced with NAUF or NAF glues

Technology: Changing the Face of Millwork

- More durable, more weather resistant, and more stable than the most durable tropical hardwoods and treated lumber.
- For your most challenging outdoor applications where wood failure is an issue.
- Unlike treated wood products, Accoya wood is completely non-toxic.
- FSC certified, Cradle to Cradle Gold, and Red List Free.

- Made from plantation-grown Obeche or Basswood, Element Veneers are an environmentally sound alternative to harvesting the genuine exotic wood specie.
- Element Veneers are produced with quality and consistency in mind, to ensure your customer's satisfaction every time.

- 45 popular colours, patterns and woodgrains have been selected to provide users the maximum in design flexibility.
- Most match the top-selling, high pressure laminate products from Pionite.
- Panolam offers a variety of textures.
- Available as FSC Certified and NAUF.

- A virtually unlimited number of colours, design and finishes, Pionite can meet any design or fabrication challenge you may face.
- Pionite standard laminate is designed for horizontal, vertical or post forming applications.
- Combine with Panolam matching TFM colours and designs and you can reduce your project costs considerably.
- All Pionite laminate is available as FSC certified.
